Mr. Robert L. Zimmerman
529 Colorado Avenue #4
Grand Junction, Colorado 81501-2677

Dear Mr. Zimmerman:

Re: Notice of Intention to Commence Small Mining Operations, Eager Beaver Project, S/001/009, Beaver County, Utah

The Division is in receipt of your Notice of Intention to Commence Small Mining Operations. The application received May 6, 1991, surfaced today. The topographic base map showing the location of the proposed operation, which you submitted under a separate cover letter, is now attached to the application. The application for the proposed Eager Beaver Project, located in Section 30, T27S, R6W, SLBM is therefore complete and no additional information is required at this time.

For your reference, I have enclosed copies of our summarized rules regarding "Operation and Reclamation Practices", and the statutory penalty for failure to reclaim a minesite (attachments SMO-1 and SMO-2).

Please give special consideration to item #10 of the "Operation and Reclamation Practices" (attachment SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

A Memorandum of Understanding (MOU) between this Division and the State Department of Health requires us to notify the Division of Environmental Health upon receipt of a mining application. You are advised to contact their office prior to starting your small mining operation to determine whether additional permits and/or approvals are required. We will forward a copy of this letter and your notice to the Health Department for their review. Their address and phone number is: Division of Environmental Health, 288 North 1460 West, Salt Lake City, Utah, 84116, (801) 538-6121.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer
